Rapid risk review

stormguidance.com/cyber3

Based on cyber security and data privacy standards and best practice, this assessment is a new and comprehensive approach to help clients determine, understand and prioritise practical improvements in cyber risk reduction.

Cyber3 delivers a practical checklist for improvement

The only cyber risk assessment that includes questions commonly asked by leading cyber insurance underwriters.

Key results from Cyber3 include:

- Cyber Risk Indicators
  - A dashboard-style presentation of key cyber risk indicators with scoring explanation.

- Cyber Risk Management Maturity Score
  - A practical rating on organisational risk management maturity across 5 key areas.

- 10-Point Cyber Improvements Checklist
  - Recommendations distilled into a list of actions resulting in stepped improvements in maturity.

- Cyber Specialist Opinion Statement
  - Objective and evidenced commentary on key risks and advice on addressing them.

- Certificate of Assessment
  - Official certificate of assessment issued by STORM.

The three steps to **Cyber3** success:

1. Arrange client engagement

This is delivered by a cyber risk specialist via a web conference

2. Assessor performs review

Our specialist walks the client through each question with full clarification and support

3. Cyber3 report delivered

Jargon-less report with opinion statement and improvement action plan; ranked by criticality

Our experts in both cyber risk and cyber incident response will bring their many years of experience and innovation to assist clients in their understanding of cyber risk in the context of their business challenges. We will assist clients to manage their risk effectively and ensure that losses from breaches are minimised.
