

# Environmental policy statement

# Environmental policy

STORM recognises it has a social responsibility and duty to manage its operations in ways that are sustainable and protect the environment.

## Our commitments

- Protection of the environment, enhancement of biodiversity and ecosystems and the prevention of pollution
- Ensure the operation of appropriate practices and protocols that uphold the company's environmental objectives and vision and applicable laws and regulations
- Continuously measure, analysis and evaluate performance as a catalyst for continuous improvement
- Foster a culture of accountability for environmental actions
- Evaluate opportunities for climate change mitigation and adaptation
- Ensure the sustainable use of resources.

To achieve the Company's environmental commitments and objectives, business activities will be carried out under the auspices of an Environmental Management System (EMS) that complies with the International Standard ISO 14001:2015. The EMS will include provision for continual improvement to support its commitment to drive forward the environmental agenda and constantly enhance the company's environmental performance.

The company will communicate its environmental performance internally and externally, ensuring that staff understand the impact their actions have on the environment.
